

## Argon7LX

Argon7LX floorstanding loudspeaker's DNA stems from Amphion's reference-level flag-ship Two18 studio monitor. The same technology, which has helped the world's top sound engineers capture and create their musical magic, has now been optimized for home-use for all to enjoy. Argon7LX has exceptionally precise imaging to bring the vocalist right into your living room, and a wide sweet spot to fill your whole home with an uplifting atmosphere. Their controlled dispersion ensures a well-balanced sound - even when you move around the room. Audition an Amphion Argon7LX, and experience sonic images you can almost touch.
