

# Helium

The perfect home looks, sounds, and feels perfect. Let Heliums enrich your life daily.

Amphion Heliums are designed for the modern home. Timeless, clean lines will blend with a variety of interiors. Designed to easily adapt to any interior placement, they maintain the joy even when your interior changes. Due to its controlled dispersion, Heliums will work also in challenging acoustic environments. Their innovative acoustic design ensures that they keep their clarity even at low listening levels. Helium's wide, even dispersion creates a room-wide listening area and helps you enjoy your music even in larger spaces.

five years warranty

against defects in materials and our workmanship.

# Krypton

A dream worth pursuing.

Krypton3 is an innovative, reference-level, 3-way full-range speaker. Due to its controlled dispersion and cardioid enclosure, it works even in challenging acoustical spaces. Two 8" midwoofers, specially made with Amphion's proprietary tooling, create midrange authority and headroom that every music lover should experience first-hand. A fast and tuneful, low-reaching bass along with a precise midrange renders acoustical spaces with uncanny reality. Midwoofers are isolated from the rest of the cabinet in perforated, cardioid chambers. This creates a cardioic dispersion pattern and radically reduces the midrange reflections and ensures that the speakers work closer to their optimum in every room. Owning a Krypton3 is like having your favourite band or orchestra perform for you in the privacy of your own home.

# Argon

Speaker manufacturers tend to strive for a certain "sound". The target for Argons is what we hear "live". Nothing more. Nothing less. Only the highest quality components are used in our quest for perfection. High-quality SEAS drivers, an electrically elegant and simple crossover, and innovative acoustical engineering create a large and clean sonic-window into all kinds of music. Natural transparency and highest level resolution allow you to experience new aspects even from the recordings you thought you knew by heart. Let the Argons take you away! Everyday.
